

STAR RANGE

**Instant  
hot water,  
advanced  
electronics**

Our NIKE and EOLO STAR wall-hung combi units provide the great advantage of **instant supply of hot water, at excellent prices**. The bithermal heat exchanger features **rapidity and efficiency both in heating and hot water supply mode** and the advanced electronics makes them suitable for combination with thermoregulation devices.

NIKE STAR, open chamber thermoregulation natural draught, and EOLO STAR, sealed chamber fan assisted model, ensure **high performance in a compact design** to facilitate installation with only 24 cm depth. Dimensions and connection are the same for both versions, to make replacement easier.
