

SMARTTECH PLUS

Hi-tech smart wireless remote control with Bluetooth technology

BOILERS REMOTE CONTROL AND REDUCE ENERGY BILLS

SMARTTECH PLUS allows **the temperature regulation and the heating time bands setting from display or remotely** through a smartphone dedicated application (internet or Wi-Fi connection required).

The switching on/off of the heating can be based on the **geolocation of family members** (through a specific function). The app changes your heating settings according to the current distance from home.

The app can **manage up to 18 smart thermostats** in different homes. Consumption is very low thanks to batteries that have an autonomy of more than 2 years.

Through a specific website is possible to modify parameters, check energy consumptions and carry out a complete monitoring of the boiler functions.

SMARTTECH PLUS **can be positioned on the wall or on a flat surface**, it is **easy to use** and well readable from every angle thanks to the e-ink technology used in digital readers.

**PERFECT FOR
CONDENSING BOILERS
MATCHING**

SMARTECH PLUS

| Description | | Code |
|---|--|----------|
| <p>Hi-tech smart wireless remote control with Bluetooth technology.</p> <p>The kit includes:</p> <ul style="list-style-type: none"> • Chronothermostat (to be placed where you want to adjust the temperature) • Gateway (to be connected to the boiler or to the internet network at home - power supply 230 V) • Wall fixing base (with leveling bubble integrated) • Table stand • 2 power batteries (as standard) • Functioning room temperature: 0 - +40 °C • Protection rating IP 20 <p>Temperature control class: V* or VI Contribution to seasonal space heating energy efficiency 3%* or 4%</p> |  <p>Dimensions (Ø x D) mm 70 x 35</p> <p>Dimensions (Ø x D) mm 70 x 18</p> | 3.030909 |

Gateway and Chronothermostat communicate via **Bluetooth technology**, therefore for their local operation internet connection is not required (whereas used for remote adjustments via App).

Options

| Description | Code |
|--|----------|
| <p>Expansion kit NEW</p> <p>For controlling the temperature in several areas of the house (example living and sleeping areas). The kit includes: additional SMART thermostat and wi-fi relay (in this case the wi-fi network is required).</p> | 3.030911 |
| <p>Electrical box cover plate kit NEW</p> <p>It allows the covering of the wall hole for electrical boxes type 503.</p> | 3.031013 |

* Temperature control class with default settings. The class depends on the settings and operation modes that can be changed, for example Modulating or ON/OFF. The use of these devices contributes, in percentage, to the seasonal energy efficiency of the heating system.

SMARTECH PLUS is also compatible, for some functions, with the virtual assistants Alexa and Google Home.
